

“Our mission is to operate and manage ships, without causing any untoward incident or any spillage at sea; to fully protect the assets entrusted to us and to create enhanced value for our shareholders and owners.”

Consistent with the Company vision of maintaining and continually improving our professional excellence in all spheres of activity involving marine transportation, our mission shall be:

- To own, operate and manage ships with zero spills at sea and zero incidents, fully protecting the lives of shipboard personnel, cargo and the Company's own assets;
- To provide a highly efficient and competitive marine oil and commodities transportation service of quality, cost-reliability, delivery and security;
- To achieve excellence in our management systems and standards by employing the best practices through an efficient and responsive management and an empowered and highly motivated work force;
- To create enhanced value for our shareholders and other stakeholders.
